

The Hong Kong University of Science and Technology
On-campus Internship Program

Self-evaluation Form (to be filled by Intern)

Name of Student: SONG Chenlu Student ID: ██████████

Academic Dept: Economics Year of Study: 2

Email: csong@stu.ust.hk Hiring Dept/Office: Economics

Internship Period: From 01/10/11 (dd/mm/yy)
to 21/12/11 (dd/mm/yy)

A) Self-evaluation

5 = Strongly agree, 1= Strongly disagree		5	4	3	2	1
1.	The internship has met my expectation.	V				
2.	I have completed the assigned tasks effectively.	V				
3.	I have given my best in the internship.	V				
4.	During the internship, I was dedicated to my work.	V				
5.	My colleagues and supervisor would regard myself as reliable and respectful.	V				
Through the internship, I have...						
6.	enhanced my professional knowledge or skills	V				
7.	identified my strengths and weaknesses.	V				
8.	been exposed to meaningful or challenging tasks.	V				
9.	polished my people skills.	V				
10.	learned to improve my time management skills.	V				
11.	built up a good network with experienced people in the industry.	V				
12.	a better understanding of the world of work.	V				
13.	a better understanding of what is expected of me when I take up a graduate job in the future.	V				
14.	a better understanding of the industry and related career options.	V				
15.	a clearer perspective and direction for my career and personal development.	V				
16.	Overall, I find the internship a meaningful experience.	V				

B) Reflections on Your Internship Experience

1. What are your intended learning outcomes for this internship?

My intended learning outcomes for this internship are to learn to collect data from various sources and organize the collected data.

2. To what extent have these learning outcomes been achieved?

I have collected GDP data for counties and cities in China, which enabled me to learn how to look for and organize data efficiently.

3. List the three most important tasks you have performed during your internship.

- 1) I have collected the 2005 GDP data for counties and cities in China.
- 2) I have learned how to use softwares to improve my efficiency.
- 3) I have learned how to make use of the resources provided by the library.

4. List the three most important abilities/skills/characteristics you have developed as a result of this internship.

- 1) I have learned to manage my time.
- 2) I have learned to prioritize different tasks.
- 3) I have learned to communicate with my supervisor effectively and efficiently.

5. Has this experience brought new ideas to your plans in career or education? If so, how?

Yes. The experience has consolidate my goal to go to graduate school.

Name of Student: Jiang Yilin

Stuent ID: [REDACTED]

Academic Dept: Economics

Year of Study: Year 2

Email: yjiang@stu.ust.hk

Hiring Dept/Office: Economics

Internship Period: From 20/04/2011 to 20/12/2011

A) Self-evaluation

	5=Strongly agree, 1= Strongly disagree				
	5	4	3	2	1
1. The internship has met my expectation.	√				
2. I have completed the assigned tasks effectively.		√			
3. I have given my best in the internship.		√			
4. During the internship, I was dedicated to my work.		√			
5. My colleagues and supervisor would regard myself as reliable and respectful.		√			
Through the internship, I have...					
6. enhanced my professional knowledge or skills.	√				
7. identified my strengths and weaknesses.		√			
8. been exposed to meaningful or challenging tasks.	√				
9. polished my people skills.		√			
10. learned to improve my time management skills.	√				
11. built up a good network with experienced people in the industry.		√			
12. a better understanding of the world of work.		√			
13. a better understanding of what is expected of me when I take up a graduate job in the future.		√			
14. a better understanding of the industry and related career options.	√				
15. a clearer perspective and direction for my career and personal development.	√				
16. Overall, I find the internship a meaningful experience.	√				

B) Reflections on Your Internship Experience

1. What are your intended learning outcomes for this internship?
I expected to learn about what an academic researcher does and how he/she conducts his/her researches in general. I also hoped to build up my research skills, including using relevant software and search engines, conducting literature reviews, collecting and processing economic data, and writing up research paper.
2. To what extent have these learning outcomes been achieved?
I have achieved most of these learning outcomes.
3. List three most important tasks you have performed during your internship.
The three most important tasks I have performed are 1) calculating certain index in the FDI project; 2) matching custom data with industrial firms' data; 3) establishing a data set of county-level population, firm and employment information.
4. List the three most important abilities/skills/characteristics you have developed as a result of this internship.

The three most important abilities/skills/characteristics I have developed are 1) carefulness; 2) concentration and patience; 3) data and literature searching skill;

5. Has this experience brought new ideas to your plans in career or education? If so, how?

This experience has greatly aroused my interest in economic academic research. By working with professors closely in research projects, I get to know how work and life in academia are like and feel inclined to pursuit such as well. Also the tasks I have fulfill interest me a lot. I might apply for graduate study and enter the field in the future.
